

# THE CASE FOR FUNDING CLINIC ABORTIONS IN NEW BRUNSWICK

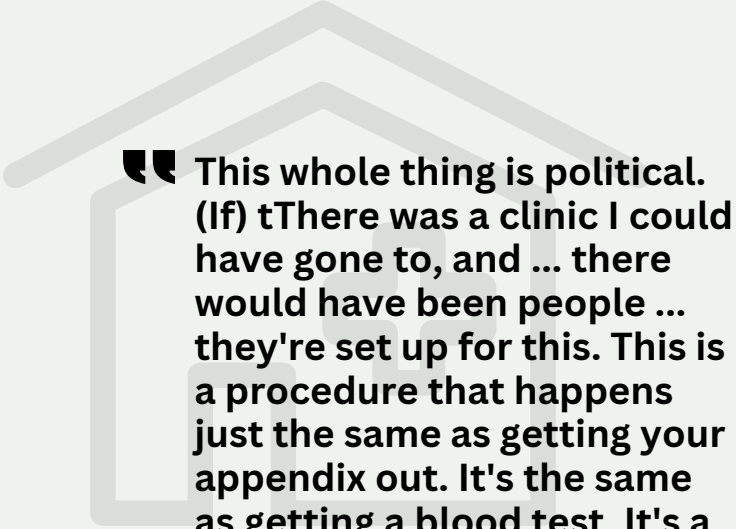

Reproductive Justice Access Project New Brunswick  
Projet Accès à la justice reproductive Nouveau-Brunswick

## RELIEF PRESSURE FROM OVERLOADED HOSPITALS

Funding abortion clinics would help hospitals provide the medical care that New Brunswickers need.

Abortion clinics are proven to be safe and effective. Funding only abortions that are performed in a hospital takes valuable time, resources, and staff away from other procedures that can only be safely performed in a hospital.

“ This whole thing is political. (If) tThere was a clinic I could have gone to, and ... there would have been people ... they're set up for this. This is a procedure that happens just the same as getting your appendix out. It's the same as getting a blood test. It's a simple procedure. ”
